Strategic Learning Mindset

Wisdom Lives Within

We learn best when we construct meaning for ourselves.
Elicit wisdom from within to shape the future.

No Way Is The Way

There is no such thing as one size fits all. Use scaffolding, but adapt and create your own authentic next steps.

Emotions Drive People

You can't talk about change without big feelings.
Leverage emotions to gain momentum that drives performance.

Fish Don't Talk About Water

We don't know who discovered water, but we are pretty certain it was not fish.
Seek feedback, reflect and have the courage to create dissonance.

You Can't Divide An Elephant in Half

You can't divide the system into parts. Zoom out. Everyone must look at the whole elephant together.

The Process Is The Content

Optimal learning comes from the how. Use an experiential process with built in reflection and feedback loops.

Just Do It

Powerful learning comes to life through action.
A continuous cycle of think while doing, creates agility.

I Am Because You Are

Inclusion, connection, purpose and belonging create energy.
Ownership comes from valuing the input and ideas of those who will implement.
Ubuntu.
